

# **Florencia Lucero**

## **Full-Stack Developer**

Buenos Aires, Argentina | [LinkedIn](#) | [Github](#) | [Portfolio](#) | 1134683047 | florenciadevamatias@gmail.com

### **WORK EXPERIENCE**

---

#### **Full-Stack Developer – Freelance - Remote**

*2024- Present*

- Developed full-stack web applications using React, Node.js, Python and PostgreSQL.
- Built responsive and accessible UI using React, Tailwind CSS and component-based architecture.
- Designed REST APIs with Node.js and FastAPI for authentication, data processing and AI integrations.
- Modeled relational databases and optimized SQL queries.
- Implemented AI tools and automation workflows to enhance user personalization.
- Managed version control, deployment and hosting workflows using Git and modern platforms.

#### **AI Resume Analyzer – Full-Stack AI Application**

*Remote | Project*

- Developed AI platform that analyzes resumes and generates improvement recommendations.
- Built backend using Python and FastAPI for file processing and AI evaluation.
- Implemented file upload handling and API validation.
- Designed frontend interface for results visualization and user interaction.

### **LEADERSHIP EXPERIENCE**

---

#### **ImpulsáTuVida – AI Personal Planning Platform**

*FullStack Developer | frontend developer | project*

- Designing productivity and life-planning platform with AI recommendations and automation flows.
- Developing scalable backend using FastAPI and PostgreSQL.

- Building frontend using Next.js and modern UI patterns.
- Integrating OpenAI services for personalized planning insights.

## **EDUCATION**

---

### **Engineering in Information Systems**

**Universidad Nacional de Río Negro – Completed coursework toward degree**

### **Frontend Development – React**

**Talento Tech Argentina**

### **Backend Development – Node.js**

**Talento Tech Argentina**

## **SKILLS & INTERESTS**

---

Frontend: React, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, Python, FastAPI, REST APIs, Authentication

Databases: PostgreSQL, SQL, Database Modeling

AI & Automation: OpenAI API, AI Applications, n8n, Data Processing

Tools: Git, GitHub, Debugging, Deployment, Environment Configuration

### **Languages:**

Spanish – Native

English – Professional Working Proficiency

### **Interests**

AI Applications • SaaS Development • Productivity Platforms • Scalable Web Architecture • Fitness & Technology Integration
